

BioNIUM Seminar Series

THURSDAY
24 April 2025

TIME
2:00 PM

LOCATION
Zoom

Dr. Shyam S. Mohapatra

**Associate Dean of Graduate Programs,
Taneja College of Pharmacy**

Title of the talk:

**“Conceptualizing
a broad anti-viral
therapy: Spotlight
on respiratory
viruses”.**

Dr. Shyam Mohapatra is a Distinguished Professor of Internal Medicine and Associate Dean of Graduate Programs at USF Health. He directs the Division of Translational Medicine and the Center for Research and Education in Nanomedicine and Bioengineering, and serves as a Senior Research Career Scientist at the James A. Haley VA Hospital. Since joining USF and the VA in 1996, Dr. Mohapatra has gained international recognition for his work in nanoscale biomedical diagnostics and therapeutics, focusing on inflammatory diseases such as asthma, viral infections, TBI, and cancer. He has received over \$57 million in extramural research funding and holds 50+ patents, with many pending. His honors include induction into the Florida Inventors Hall of Fame, the Sigma Xi Award, and the Florida Academy of Sciences Gold Medal. He is a Fellow of AAAI, NAI, AIMBE, AAAS, FLASEM, and GAN. His work has led to biotech spin-offs and global recognition in nanotechnology.
