Details of the supplier of the safety data sheet

#### **Emergency Telephone Number**

Chemtrec US: (800) 424-9300 Chemtrec EU: 001 (202) 483-7616

### 2. Hazard(s) identification

### Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

| Flammable liquids<br>Acute oral toxicity<br>Serious Eye Damage/Eye Irritation | Category 2<br>Category 4<br>Category 2 |
|---|--|
| Carcinogenicity   | Category 2                             |
| Specific target organ toxicity (single exposure)                              | Category 3                             |
| Target Organs - Respiratory system, Central nervous sys                       | tem (CNS).                             |

### Label Elements

### Signal Word

Danger

#### **Hazard Statements**

Highly flammable liquid and vapor Harmful if swallowed Causes serious eye irritation May cause respiratory irritation May cause drowsiness or dizziness Suspected of causing cancer

#### Precautionary Statements

#### Prevention

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Use personal protective equipment as required Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Wear eye/face protection Do not breathe dust/fume/gas/mist/vapors/spray Use only outdoors or in a well-ventilated area Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep container tightly closed Ground/bond container and receiving equipment Use explosion-proof electrical/ventilating/lighting/equipment Use only non-sparking tools Take precautionary measures against static discharge Keep cool Response IF exposed or concerned: Get medical attention/advice Inhalation IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Skin IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower Eyes IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention Indestion IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth Fire In case of fire: Use CO2, dry chemical, or foam for extinction Storage Store locked up Store in a well-ventilated place. Keep container tightly closed

Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC)

May form explosive peroxides

### 3. Composition / information on ingredients

| Component      |                 | CAS-No  | Weight %  |                                   |  |
|----------------|-----------------|---|---|-----------------------------------|--|
|                | Tetrahydrofuran |   | 109-99-9  | >95                               |  |
|                |                 | 1   | First aid massures  |                                   |  |
|                |                 | 4.1   | First-aid measures  |                                   |  |
| General Advice |                 | If symptoms persist, call a physician.  |   |                                   |  |
| Eye Contact    |                 | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.<br>Obtain medical attention. |   |                                   |  |
| Skin Contact   |                 | Wash off imm call a physicia  | ash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, I a physician. |                                   |  |
| Inhalation     |                 | Move to fresh symptoms oc   | air. If not breathing, give artificial resp<br>cur.   | iration. Get medical attention if |  |

| Ingestion  | Clean mouth with water and drink afterwards plenty of water.  |  |  |
|--|---|--|--|
| Most important symptoms/effects  | . Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting: Causes central nervous system depression   |  |  |
| Notes to Physician   | Treat symptomatically   |  |  |
|  | 5. Fire-fighting measures   |  |  |
| Suitable Extinguishing Media   | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Cool closed containers exposed to fire with water spray. |  |  |
| Unsuitable Extinguishing Media   | Water may be ineffective  |  |  |
| Flash Point  | -21 °C / -5.8 °F  |  |  |
| Method -   | No information available  |  |  |
| Autoignition Temperature   | 215 °C / 419 °F   |  |  |
| Explosion Limits<br>Upper<br>Lower<br>Sensitivity to Mechanical Impac<br>Sensitivity to Static Discharge |   |  |  |

#### Specific Hazards Arising from the Chemical

Flammable. Containers may explode when heated. Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. May form explosive peroxides.

#### **Hazardous Combustion Products**

Carbon monoxide (CO) Carbon dioxide (CO<sub>2</sub>) peroxides

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

| NFPA<br>Health<br>2            | Flammability<br>3  | Instability<br>1 | Physical hazards<br>N/A |  |  |  |
|--------------------------------|--|------------------|-------------------------|--|--|--|
| 6. Accidental release measures |  |                  |                         |  |  |  |
| Personal Precautions           | Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |                  |                         |  |  |  |
| Environmental Precautions      | Should not be released into  |                  | ·                       |  |  |  |

Methods for Containment and CleanSoak up with inert absorbent material. Keep in suitable, closed containers for disposal.UpRemove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

|          | 7. Handling and storage  |
|----------|--|
| Handling | Wear personal protective equipment. Do not get in eyes, on skin, or on clothing. Ensure adequate ventilation. Avoid ingestion and inhalation. If peroxide formation is suspected, do not open or move container. Keep away from open flames, hot surfaces and sources of ignition. Use only non-sparking tools. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Take precautionary measures against static discharges. |
| Storage  | Shelf life 6 months. May form explosive peroxides on prolonged storage. Containers should be dated when opened and tested periodically for the presence of peroxides. Should crystals form in a peroxidizable liquid, peroxidation may have occurred and the product should be considered extremely dangerous. In this instance, the container should only be opened remotely by professionals. Keep containers tightly closed in a dry, cool and                                      |

well-ventilated place. Keep away from heat and sources of ignition. Flammables area. Store under an inert atmosphere.

### 8. Exposure controls / personal protection

#### Exposure Guidelines

#### <u>Legend</u>

ACGIH - American Conference of Governmental Industrial Hygienists OSHA - Occupational Safety and Health Administration NIOSH IDLH: The National Institute for Occupational Safety and Health Immediately Dangerous to Life or Health

| Engineering Measures          | Use explosion-proof electrical/ventilating/lighting/equipment. Ensure that eyewash stati and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.                                     |  |
|-------------------------------|---|--|
| Personal Protective Equipment |   |  |
| Eye/face Protection           | Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.   |  |
| Skin and body protection      | Long sleeved clothing.  |  |
| Respiratory Protection        | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. |  |
| Hygiene Measures              | Handle in accordance with good industrial hygiene and safety practice.  |  |

| Persistence and Degradability Persistence is |                  | s unlikely based on information | ation available. |                       |

**Bioaccumulation/Accumulation** 

No information available.

Mobility

Will likely be mobile in the environment due to its volatility.

| Component       | log Pow |
|-----------------|---------|
| Tetrahydrofuran | 0.45    |
|                 |         |

### 13. Disposal considerations

Waste Disposal Methods

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

| Component                  | RCRA - U Series Wastes | RCRA - P Series Wastes |
|----------------------------|------------------------|------------------------|
| Tetrahydrofuran - 109-99-9 | U213                   | -                      |

|                           | 15. Regulatory information |  |  |  |

All of the components in the product are on the following Inventory lists: X = listed

#### International Inventories

| Component       | TSCA | DSL | NDSL | EINECS    | ELINCS | NLP | PICCS | ENCS | AICS | IECSC | KECL |
|-----------------|------|-----|------|-----------|--------|-----|-------|------|------|-------|------|
| Tetrahydrofuran | Х    | Х   | -    | 203-726-8 | -      |     | Х     | Х    | Х    | Х     | Х    |
| Legend:         |      |     |      |           |        |     |       |      |      |       |      |

X - Listed

E - Indicates a substance that is the subject of a Section 5(e) Consent order under TSCA.

F - Indicates a substance that is the subject of a Section 5(f) Rule under TSCA.

N - Indicates a polymeric substance containing no free-radical initiator in its inventory name but is considered to cover the designated polymer made with any free-radical initiator regardless of the amount used.

P - Indicates a commenced PMN substance

R - Indicates a substance that is the subject of a Section 6 risk management rule under TSCA.

S - Indicates a substance that is identified in a proposed or final Significant New Use Rule

T - Indicates a substance that is the subject of a Section 4 test rule under TSCA.

XU - Indicates a substance exempt from reporting under the Inventory Update Rule, i.e. Partial Updating of the TSCA Inventory Data Base Production and Site Reports (40 CFR 710(B).

Y1 - Indicates an exempt polymer that has a number-average molecular weight of 1,000 or greater.

Y2 - Indicates an exempt polymer that is a polyester and is made only from reactants included in a specified list of low concern reactants that comprises one of the eligibility criteria for the exemption rule.
